

ABOUT THE COMPANY :-

We are a leading company specializing in precision die casting, extrusion and Alloys. Our company is dedicated to fostering talent and providing opportunities for students interested in mechanical, mechatronics, automobile, production, electronics, instrumentation, metallurgy, electrical, tool, and die casting engineering fields.

Our company offers exciting career opportunities in various domains, including design, manufacturing, quality assurance and project management. We are particularly interested in students specializing in mechanical, mechatronics, automobile, production, electronics, instrumentation, metallurgy, electrical, tool, and die casting engineering disciplines. We are enclosing the JD for your reference.

Job Description: (DET) Diploma Trainee Engineer (Mechanical, Mechatronics, automobile, production, instrumentation, metallurgy, tools and die casting, electronics, electrical)

- ❖ **Position:** Diploma Trainee Engineer
- ❖ **Department:** Production/Maintenance
- ❖ **Location:** Manesar
- ❖ **Salary:** Rs. 15,000 per month (during the apprenticeship period)
- ❖ **Duration:** 3 years (with the potential for confirmation based on performance)

Roles and Responsibilities:

- **Machine Operation:** Operate and monitor precision die casting machines to ensure smooth production processes.
- **Quality Assurance:** Conduct regular quality checks on finished products to ensure compliance with specifications and standards.
- **Maintenance Support:** Assist in the maintenance and troubleshooting of machinery to minimize downtime and maximize productivity.
- **Process Optimization:** Collaborate with team members to identify areas for process improvement and implement solutions to enhance efficiency.
- **Safety Compliance:** Adhere to all safety protocols and guidelines to maintain a safe working environment for oneself and others.
- **Documentation:** Maintain accurate records of production activities, quality inspections, and maintenance tasks as required.
- **Training and Development:** Participate in training programs and workshops to enhance technical skills and knowledge in the field of precision die casting.

- **Team Collaboration:** Work closely with supervisors, technicians, and other team members to achieve production targets and deliver exceptional results.
- **Continuous Learning:** Stay updated on industry trends, technological advancements, and best practices related to precision die casting engineering.

Qualifications:

- Diploma in Mechanical Engineering, Electrical or related field from a recognized institution.
- Strong mechanical aptitude with a passion for hands-on work in a manufacturing environment.
- Basic understanding of machine operations, maintenance principles, and quality control processes.
- Excellent problem-solving skills and the ability to work effectively under pressure.
- Good communication and interpersonal skills to collaborate with team members and communicate effectively.
- Willingness to learn and adapt to new technologies and processes in the precision die casting industry.

Benefits:

- Comprehensive training and development opportunities to enhance technical skills and knowledge.
- Opportunity for career advancement and growth within the company based on performance and potential.
- Competitive salary and benefits package upon confirmation after the apprenticeship period.
- Exposure to cutting-edge technologies and industry-leading practices in precision die casting engineering.
- Supportive work culture that values teamwork, innovation, and continuous improvement.

Note: The successful candidate will undergo an apprenticeship period of one year with a monthly salary of Rs. 15,000. Upon satisfactory performance evaluation, the candidate will be confirmed in the role for a period of three years, with the possibility of further career advancement within the company. and explore potential collaborations.
